Specialized Solutions for Industrial Efficiency and Safety

Mobile electric tugs make it easier to move heavy loads, reduce physical strain, and increase work efficiency.

Hygienic wall protections and safety systems protect walls from mechanical damage, ensure cleanliness, and improve durability in industrial environments.

Movexx mobile electric tugs allow for easy transportation of heavy loads on wheels.

PolySto offers hygienic wall coverings and protective systems to guard against mechanical damage.

Movexx Mobile Electric Tugs

Mobile electric tugs are designed to ease the movement of heavy loads, ensuring smooth and safe operation for workers. Compact and maneuverable, they efficiently push or pull loads, boosting productivity and reducing physical strain. A reliable solution for companies needing horizontal movement equipment for loads up to 6 tons.

Key Features:

- Dual-battery support for 24/7 use
- Easily adaptable hook system
- Safe and ergonomic operation
- Transport capacity up to 6 tons
- High quality standards

Electric Tug TT1000-T

Compact, maneuverable tugger for pulling/
pushing up to 1000 kg loads.

Power:	Motor 24V, 300W
Max pull:	Up to 1000kg
Speed:	4 km/h
Battery:	Repleceable lithium 24V
Working height:	926 - 1155 mm

Electric Tug TT1000-M-Inox-EB

Stainless steel electric tugger for hygienic/
corrosion-resistant environments.

Power:	Motor 24V, 300W
Max pull:	Up to 1000kg
Speed:	4 km/h
Battery:	Repleceable lithium 24V
Working height:	650 - 1080 mm

Electric Tug TT2500-L

Powerful tugger for up to 2500 kg, suitable for industry and logistics.

Power:	Motor 24V, 600W
Max pull:	Up to 2500kg
Lift:	1000 kg
Speed:	4 km/h
Battery:	Repleceable lithium 24V
Working height:	932 - 1151 mm

Electric Tug RR1000-S

Durable stainless steel model, for up to 1000 kg, ideal for hygiene-sensitive areas.

Power:	Motor 24V, 420W
Max pull:	Up to 1000kg
Speed:	6,5 km/h
Battery:	Repleceable lithium 24V
Working height:	1082 - 1223 mm

Electric Tug TT1000-F

Reliable, compact tugger for up to 750 kg (lift: 1000 kg), high maneuverability.

Power:	Motor 24V, 300W
Max pull:	Up to 750kg
Lift:	1000 kg
Speed:	4 km/h
Battery:	Repleceable lithium 24V
Working height:	1087 - 1228 mm

Electric Tug TT1000-T-CP

Designed to move up to 20 shopping trolleys with a special towing system.

Power:	Motor 24V, 300W
Max pull:	Up to 20 shopping trolleys
Speed:	4 km/h
Battery:	Repleceable lithium 24V
Working height:	1029 - 1132 mm

Electric Tug TT500-S-HH

Compact tugger for 500 kg, perfect for smaller industrial/storage areas.

Power:	Motor 24V, 300W
Max pull:	Up to 500kg
Speed:	4 km/h
Battery:	Integrated AGM battery 24V
Working height:	750 - 1200 mm

Electric Tug TT1500-M-SR

Robust model for 1500 kg loads with reinforced construction.

Power:	Motor 24V, 700W
Max pull:	Up to 1500kg
Speed:	4,5 km/h
Battery:	Repleceable lithium 24V
Working height:	800 - 1100 mm

Electric Tug TT6000-S- Cleanroom

Designed for cleanroom environments (e.g., pharma/food), moves up to 6000 kg.

Power:	Motor 24V, 1.100W
Max pull:	Up to 6000kg
Speed:	4 km/
Battery:	Integrated AGM battery 24V
Working height:	1058 - 1285 mm

PolySto Hygienic Wall and Ceiling Protection

PolySto offers high-quality wall and ceiling coverings designed for maximum hygiene and durability. Ideal for industries such as food and pharma, they protect against mechanical damage, are easy to clean, and resistant to aggressive environments.

Features:

- Made from glass fiber-reinforced polyester (FRP)
- Easy to clean
- Scratch and impact resistant
- Water and chemical resistant
- Fast and easy installation
- Food-safe, HACCP-compliant

FRP panels can be glued to metal, concrete, masonry, or other old/new wall and ceiling surfaces. They can also be pre-applied on sandwich or cement boards.

Accessories:

- Pre-formed skirting boards
- Stainless steel corner guards
- Impact-resistant protective elements

PolySto CleanSheet – Glass fiber reinforced composite polyester

PolySto Hard Fix – Hybrid polymer adhesive

PolySto RamPanel – Cement board laminated with CleanSheet

InsuPanel – One-sided laminated board with CleanSheet

PolySto CleanSheet / PolySto CleanSheet

HygiSeal 3.1 – Hybrid polymer sealant for joints
